\*\*\*The above chart assumes main canopies with standard configuration (ie, no cross-bracing). When ordering your custom Wings please indicate on the order form exactly which main and reserve canopies you intend to use in your new Wings so that we may build you the most suitable container. We are able to accommodate many different combinations of canopies and can create new patterns when necessary. If your main and/or reserve has Dacron lines, be sure to indicate that as well since it does affect pack volume. If you have any questions, please don't hesitate to contact us! \*\*\*
