

So what is this STORM?

Thunder, Lightning, Wind and Rain... oh, the canopy. With great openings and a powerful flare at landing, this truly is the 7-cell that thinks it's a 9-cell. Looking for a reliable canopy that will keep you challenged? Have you been searching for the perfect wingsuit canopy? Considering trying CF one day but not ready to buy a second canopy? Well here you go. We would have called it the "Perfect Storm" but that was already taken...
