

ZP.EXE SQUARE PARACHUTE

ZP.EXE CHARACTERISTICS

The ZP.Exe is one of the most consistent, reliable canopies around.

Very stable and solid airfoil.

Consistently, on heading openings.

Flatter glide angle and further reach than its predecessor, the ZP range.

Light toggle and front riser pressure.

Not easy to stall in full flare.

Maintains good lift on landing, even at low airspeed.

Easy to pack.

Very responsive, without being radical, making it the ideal canopy for intermediate to advanced jumpers.

Make sure you select the right size canopy for your experience level and weight.

Canopy Model	Size Sq. Ft.	Pack Vol. Cu.in.	Weight Lbs.	Msw Lbs.
