

NEOS

EXTRAORDINARY PERFORMANCE FOR EXTRAORDINARY PILOTS

The ICARUS NEOS is the latest and finest ZP 9-cell high performance Canopy. Featuring innovative aerodynamic and structural characteristics, like the new ARC Bracing (Advanced Rib Construction) and the ERAS (Enhanced Ram Air Stabilizers). Awesome snivelling on heading openings, improved aerodynamic efficiency, optimized stabilizer parasite drag and higher speeds. The best all-round high performance canopy for advanced canopy pilots, professional instructors, and camera flyers, looking for a unique high performance canopy with great openings.
