

Icarus Reserve

YOUR LAST LINE OF DEFENSE

ICARUS Canopies has gone again **ONE STEP AHEAD** and has designed a state-of-the-art wing that provides fast, accurate and reliable openings as well as unique flight characteristics for a reserve canopy. From the safety and reliability of the opening, you continue your flight under the ICARUS RESERVE, with unparalleled flight and landing performance. The ICARUS RESERVE meets the industry's highest requirements for safety and performance - TSO C23d (FAA) and ETSO C23d (EASA). Years of intense field trials and rough military use in harsh environments have proven the ICARUS RESERVE a leader in reserve technology with outstanding strength and reliability in any emergency situation.

Available colors: **WHITE**. Available in standard sizes only.
